

This exploded view diagram illustrates the components of the Philips SH6500 electric shaver. The parts are numbered as follows:

- 1**: A small rectangular component, likely a battery or a part of the power switch mechanism.
- 2**: The main body of the shaver, featuring a sliding switch and a power button.
- 3**: A small cylindrical component, possibly a motor or a battery cell.
- 4**: A small rectangular component, likely a battery or a part of the power switch mechanism.
- 5**: A cylindrical component, likely a battery or a part of the power switch mechanism.
- 6**: The shaver head assembly, which includes the foil and the trimmer.
- 7**: Screws used to secure the shaver head assembly.
- 8**: A small component, likely a battery or a part of the power switch mechanism.
- 9**: The power cord and its plug.
